KICKER AUDIO

WHEN WE SET OUT TO PRODUCE THE HIGHEST QUALITY MOTORCYCLE AUDIO SYSTEMS AVAILABLE WE KNEW WE WERE GOING TO HAVE TO TEAM UP WITH THE BEST IN THE BUSINESS - KICKER AUDIO.

TOGETHER KICKER & KÜRYAKYN HAVE CREATED CUTTING EDGE, COMPLETE AUDIO SYSTEMS DESIGNED BY MOTORCYCLISTS EXCLUSIVELY FOR MOTORCYCLISTS FROM THE HIGHEST QUALITY MATERIALS AVAILABLE FOR OUTSTANDING, LONG LASTING PERFORMANCE.

THE NEW KICKER AUDIO COMPONENTS HAVE BEEN DESIGNED FROM THE GROUND-UP SPECIFICALLY FOR MOTORCYCLE APPLICATIONS. PROPER DESIGN FOR SPEAKERS, AMPLIFIERS & ELECTRONICS REQUIRE THAT THEY WILL BE LIGHTWEIGHT, WEATHER-RESISTANT, EFFICIENT, & WILL FIT THE BIKE. CASE IN POINT; OUR SPEAKERS USE NEODYMIUM MAGNETS & ARE LIGHTER THAN OEM; USE RUBBER CONES (NOT PAPER) TO WITHSTAND THE ELEMENTS; ARE ENGINEERED FOR MAXIMUM EFFICIENCY TO PRODUCE HIGH OUTPUT SOUND - UTILIZING EVERY WATT OF INPUT; & ARE APPROPRIATELY SIZED TO TAKE UP MINIMAL SPACE.

OTHERS IN THE MOTORCYCLE AUDIO BUSINESS SIMPLY REPACKAGE CAR AUDIO COMPONENTS. REPACKAGING CHEAP CAR PARTS IS NOT DESIGN; IT'S REPACKAGING! KICKER & KÜRYAKYN DO A SUPERIOR JOB OF DESIGNING PARTS FROM THE GROUND-UP, THAT FIT THE BIKE, PLAY LOUD, LIVE THROUGH THE WEATHER, & MOST IMPORTANTLY ARE DESIGNED WITH YOU - THE AVID MOTORCYCLIST IN MIND.

INJECTION MOLDED SADDLEBAG SPEAKER LIDS

WITH 6"x9" KICKER SPEAKERS Patent Pending

873

The wizards at Kuryakyn & Kicker have come up with a replacement saddlebag lid that will have your bagger rockin' like never before! Featuring high-tech, marine-grade 6" x 9" Kicker Speakers with separate mounted 3/4" tweeters & a dependable high pass cross-over for unbelievable sound. Chrome or Black waterproof speaker grills come on a black finish that's fully paintable - or add our Saddlebag Lid Covers (P/N 4117) for undeniable style. Speakers are covered with FrogzSkin (Patent Pending) a protective screen designed to keep out water & debris & will not interfere with the quality of sound. These Saddlebag Lids are for riders who demand the ultimate in looks & function without sacrificing much storage.

878

- Power Handling (Peak/RMS): 300W/100W
- Frequency Response: 40Hz-5kHz

See www.kuryakyn.com for Additional Information
Fits: See Fitment Chart - pg 25

873	Chrome Grill - Injection Molded Saddlebag Lids with 6"x9" Speaker & 3/4" Tweeters (pr)	\$459.99
878	Black Grill - Injection Molded Saddlebag Lids with 6"x9" Speaker & 3/4" Tweeters (pr)	\$449.99

Note: May work with other amplifier & Speaker combinations but additional wiring may be needed. Also fits Fairing Factory Saddlebags (P/N's 5396 & 5397 - pg 191).

Note: 871 Amplifier & Harness recommended for superior sound. Easy plug & play installation.

COVERS FOR INJECTION MOLDED SADDLEBAG SPEAKER LIDS Patent Pending

If you're looking to add our Injection Molded Saddlebag Speaker Lids (P/N 873 & 878) & you're worried they won't match your paint job or you simply want to protect your investment from boot scuffs & wear - these are the covers for you. The stylish design stretches right over the top of each saddlebag lid creating a unique look that looks great with any color bike. Each cover features cut outs for speakers & tweeters to ensure no sound loss while providing the utmost protection. Made from soft, matte finished black vinyl with a felt interior.

Fits: Designed to work with Kuryakyn Injection Molded Saddlebag Lids with 6"x 9" Kicker Speakers (P/N 873 & 878)

4117	Covers for Kuryakyn Saddlebag Lids with 6"x9" Speakers (pr)	\$79.99

SPEAKER GRILLS FOR A
CUSTOMIZED LOOK!

Shown with P/N 3788 Flame Speaker Grills - Sold Separately

KICKER® AUDIO AMP

The wizards at Kuryakyn & Kicker have created the ultimate 5-channel motorcycle audio amplifier. 4 channels of full range power plus 100 watts of subwoofer power! Rather than spraying a little car audio amp with some waterproofing goop like the other guys, they started with a clean sheet of paper on this one. DSP, (digital Signal Processing) provides superior performance when compared to simple car stereo amps. DSP allows the amp to be tuned exactly to the riding environment with equalization, frequency response, & compression all set precisely for rocking on the road.

High power combined with low current draw delivers powerful efficient performance without sucking your charging system dry. Featuring an ultra slim, compact design, the amp connects to & mounts inside your fairing. You get to keep the factory radio & its handlebar controls; no need to change out radios! Specially designed & optimized for Kicker Speakers.

- Power Output: 46 w/ch. X 4 @ 2 ohms, + 100 W @ 1 ohm
- Max Current Draw: 26 Amps at 13.8 Vdc
- Typical continuous current draw
- Plug & Play wiring included to accommodate for speakers in stock locations. All other Kuryakyn speaker kits have wiring to adapt to the 871 harness kits. Designed specifically for use with P/N's 872-875 & 877

Fits: '06-'12 Electra Glides, Road Glides, Street Glide, & Trikes (except '11-'12 FLHXSE & '11 FLTRUSE, & '12 FLTRXSE)

871 | Kicker 4.1 DSP Amplifier (ea) | \$499.99

Note: Will not work with Medallion Gauges on Batwing fairing bikes.

KICKER® SUBWOOFER

WITH MOUNT FOR SADDLEBAG

Finally a subwoofer solution designed to drop into your left saddlebag turning it into a stealthy enclosure to produce big bass that'll have everyone wondering what's inside.

FEATURES

- 6 1/2" diameter, 1 Ohm
- 150 Watts Rms Power Handling
- Mounting Depth Under 3 Inches
- Injection-Molded, Modified-Spoke Cone for Max Excursion
- 360° Cone Bracing; Ribbed Santoprene Surround
- Easily Removable - Fits In Left Side Saddlebag

Fits: Left side saddlebag on '06-'11 Electra Glides, Road Glides, & Street Glides (except '09-'11 FLHTCUTG, '10-'11 FLHXXX, '06-'09 FLHT Standard, '11 FLHXSE, '11 FLTRUSE)

888 | Kicker Subwoofer with Mount (pr) | \$199.99

Requires Amp (P/N 871) or Subwoofer Amp (P/N 886) for installation. Plugs directly into P/N 871.

KICKER® MONO SUBWOOFER AMP

Big power with a tiny footprint! Direct amplification technology for better than 85% efficiency. Designed to power the Kicker Subwoofer (P/N 888) for optimum sound output mounting directly on top of the enclosure.

FEATURES

- 200 X 1 Into 1/2-Ohm Load
- 15 Amps Max Current Draw
- 40-250 Hz Frequency Response
- Selectable Low-Pass Crossover; 100 Hz & 250 Hz, 40 Hz Hi-Pass
- Dual Input Sensitivities & Variable Gain
- Bass Boost, 6Db At 60 Hz
- Selectable Turn On

Fits: '96-'12 Electra Glides, Road Glides, & Street Glide

886 | Kicker Mono Subwoofer Amp (pr) | \$199.99

Shown with P/N 3793 Deco Speaker Grill Shown - Sold Separately

SADDLEBAG LID SPEAKER PODS

Patent Pending

Introducing the most cost effective rear speaker conversion for your modern bagger. By utilizing the factory saddlebag lids, these speakers will literally transform your bags into the ultimate sound system! Kicker's powerful KPS5250 2 or 4 ohm Speakers (refer to pg 26 or website for speaker specs) are wrapped in high quality Kuryakyn chrome & are angled towards the rider & feature a water-proof design for optimum sound quality & durability.

Kicker Amplifier & Wiring Harness (P/N 871) required for installation (sold separately - pg 24).

Fits: See Fitment Chart - Below

872	2 ohm Saddlebag Lid Speaker Pods with 5 1/4" Speakers (pr)	\$289.99
868	4 ohm Saddlebag Lid Speaker Pods with 5 1/4" Speakers (pr)	\$289.99

Note: Requires cutting speaker hole in saddlebag lid. Storage space is not compromised.

Note: May work with other amplifier & Speaker combinations with additional wiring (sold separately).

NEVER BEFORE HAS A REPLACEMENT
SPEAKER SOUNDED SO GOOD!

KICKER® KPS5250 SPEAKER UPGRADE

We don't simply use car audio speakers with a new sticker & call them bike speakers. These are the real deal & once you put them in you'll be blown away. These speakers are weather-proof & feature high-efficiency coaxials specifically created as fairing drop-ins or rear speaker replacement on '96 & newer Harley touring motorcycles. Extremely powerful, these 2 & 4 ohm speakers are lighter than anything on the market due to their rare-earth neodymium motors! The 3/4" dome tweeters are designed for efficiency & performance & the midrange drivers are totally sealed for greater cone area & higher Sound Pressure Levels. Leave the dull sounding, heavy speakers in the dark ages!

ANTENNAS

NEW

DIRECT OEM REPLACEMENT

BILLET ANTENNAS

Introducing a billet antenna that's made for people who actually ride. No more bent or broken antenna studs thanks to the rubber over-molded spring base allowing the antenna to flex if bumped or hit. These 12" antennas pick up AM/FM signals (no CB) & are a direct replacement for OEM. Available in chrome or two-tone finishes; install in just seconds.

Fits: '89-'12 Electra Glides, Road Glides, Street Glides, Tour Glides & Trikes – AM/FM applications only

862	Round/Grooved, Two-Tone Black & Raw Aluminum (ea)	\$39.99
863	Round/Grooved, Chrome (ea)	\$39.99
864	Hex/Grooved, Two-Tone Black & Raw Aluminum (ea)	\$39.99

**FLEXIBLE ANTENNA
YOU CAN
HIDE ALMOST
ANYWHERE!**

TUNE TRAPPER® HIDDEN ANTENNA

A hidden AM/FM/HD/WB antenna that works! Mount it anywhere (in almost any vehicle, boat, RV or motorcycle) in any position, in steel or

fiberglass; it's flexible, can be bent 10-20 degrees & works great inside H-D fairings! A full 1/2 wave helical dipole antenna, hand tuned to resonance with special instruments & requires no ground. Uses 95% braided shield cable for virtual elimination of EMI electrical noise caused by engines, fans, wipers, etc. These hand-tuned USA-made antennas require no power; your radio has all the preamp it needs built in, it's just looking for a properly tuned antenna to make it rock.

Fits: Electra Glides, Road Glides, Street Glides, & Trikes (Overall length is 2' with a 2' cable)

853 | Tune Trapper Hidden Antenna (ea) | \$39.99

SoundGate CORE SYSTEM FOR IPOD®

Connect an iPod® directly to your factory or aftermarket radio & provides video output from compatible iPods (including the iPod Classic, Touch & Nano). Supplies power & charges your iPod.

Includes: CORE for iPod, 3.5mm to a/v RCA cable, 3.5mm to 3.5mm cable, cigarette lighter charger, 3 wire power cable for optional hardwire installation

Fits: Allows for connection to any factory or aftermarket source unit with RCA or 1/8" (3.5mm) audio inputs using the supplied cables

876 | Soundgate® Core System Package (kit) | \$62.99

DUAL FUNCTION FLEXIBLE ANTENNAS

Big performance cut down to size! Enjoy all the range & clarity your AM, FM & CB radio offer without the mile-high stock antenna. This compact & flexible antenna is only 17" long & two versions are available depending on your bike model & mount. Each comes tuned for its specific mounting location so no calibration is needed. Your bike will look better, loads will strap on easier, & it won't be in your way!

Fits: '89-'12 Electra Glides, Road Glides, Street Glides, Tour Glides, & Trikes equipped with AM/FM radio &/or CB radio kits

865

865	Tour-Pak Mount (ea)	\$29.99
866	Frame Mount (ea)	\$29.99

WIDE RANGE - SMALL SIZE

KPXI50.2 AMPLIFIED CONTROLLER

When a traditional radio simply won't fit, look no further. The KPXi50.2 takes your iPhone or iPod & turns it into your motorcycle's stereo while keeping your iPhone or iPod charged. The remote control features big, blue-backlit buttons & multiple mounting options, while providing volume, track & playlist control as well as a random playback option for your music. Built in amplification, (25 watts RMS x 2 @ 2-ohms) gives you the option of adding additional speakers for a complete stereo system for your bike. External amplifiers can also be added for even more power.

Fits: Universal for any vehicle with a 12 volt charging system where a traditional head unit will not work

Note: Does NOT come with mounting hardware. Requires simple wiring.

889 | KPXi50.2 Amplified Controller for iPod (kit) | \$249.99
