## V-120 & V-120C HORNET®

ELECTRONIC DEER AVOIDANCE SYSTEM

**#1 ENDORSED DEER  
ALERT IN AMERICA**

The Hornet has proven to be the only device to effectively deter deer accidents. There are tens of thousands of Hornets in daily use with millions of proven miles. Regardless of speed, it produces a sound pressure of 120 db, & under most circumstances is very resistant to contamination. Regular inspection & cleaning is recommended.

Proper placement is essential for maximum performance. The Hornet includes various universal mounting brackets, basic hardware & a switch. A separate motorcycle wiring kit is available & includes a harness & switch specifically designed for use on a motorcycle; while not required, it will make the installation much neater. Our P-Clamps work great on many motorcycles to assist in mounting to frames or engine guards.

Universal fit on 12-volt motorcycles

TO ASSIST IN SELECTING THE CORRECT PRODUCT FOR A PARTICULAR APPLICATION, WE HAVE ASSEMBLED THIS REFERENCE GUIDE. IT COVERS NEARLY EVERY MODEL PRODUCED IN THE LAST 20 YEARS. (DUE TO LIMITED SPACE, SOME OMISSIONS HAVE BEEN MADE.)

OUR GOAL THROUGHOUT THE CATALOG IS TO KEEP FITMENTS AS EASY TO UNDERSTAND AS POSSIBLE, EVEN THOUGH THAT IS NOT ALWAYS AN EASY TASK. WE UTILIZE THE BROADEST APPLICATION THAT ACCURATELY DESCRIBES THE MOTORCYCLES THE PRODUCT WILL FIT & EXCLUDE SPECIFIC MODELS AS NEEDED.

FOR EXAMPLE, IF A PRODUCT FITS ALL ELECTRA GLIDES MADE IN A PERIOD OF TIME, WE WILL SAY - "FITS: ALL '09-'11 ELECTRA GLIDES". IF THERE ARE ANY PARTICULAR ELECTRA GLIDE MODELS THE PRODUCT WON'T FIT, WE WILL NOTE THE EXCLUSION BY THE LETTER DESIGNATION AND/OR MODEL NAME - "FITS: ALL '09-'11 ELECTRA GLIDES (EXCEPT '09 FLHT STANDARD)".

THE REFERENCE GUIDE BELOW LAYS OUT HARLEY-DAVIDSON'S MOTORCYCLE FAMILIES, SUB-FAMILIES, & SPECIFIC MODELS. IT DOES NOT LIST THE YEAR(S) PARTICULAR MODELS WERE OFFERED, BUT IT DOES CONNECT THE LETTER DESIGNATIONS TO THE MODEL NAMES & FAMILIES OF MOTORCYCLES REFERENCED THROUGHOUT THE CATALOG.
