#### TOOLS SUGGESTED

Set of hex wrenches, set of combination wrenches.

#### PROCEDURE

**STEP 1** Remove the existing footpeg; save the mounting hardware for reuse.

**STEP 2 (Metric only)** Place the adapter that you have purchased separately into the end of the Flamin' peg and just finger tighten the fastener in PIC.1.

**STEP 3** Install the left and right Flamin' Pegs in the footpeg mounts on the motorcycle. Leave the footpeg adapter fastener loose for now.

**NOTE** The footpeg mount will positively engage the peg when tightened; determine the desired position before fully tightening.

**STEP 3** Adjust the angle of the footpeg on the male mount then secure with the footpeg fastener.

**STEP 4** Check the angle for comfort; re-adjust if necessary. Repeat for the opposite side.
