904544	1 Hardware Kit Including the Following 2 Items:
204544	4 M8 X 1.25 X 22mm BSCS 18-8 Highly Polished
400078	1 Anti-seize
304544	1 Installation Instructions

THANK YOU FOR CHOOSING KURYAKYN!

NOTE Anti-seize must be used on the 4 new mounting fasteners.

PROCEDURE

STEP 1 Remove the stock pegs from the OEM mounts by removing the cotter pin and washer from the bottom of the mounting pin. Watch how the placement of the spring is connected to the peg and the hole in the mount. Keep all these parts, they will be reused.

STEP 2 Remove the OEM mounts using #6 Allen wrench to remove the 2 bolts. These bolts will not be reused.

STEP 3 Mount the new bracket into place using the new fasteners. Make sure to apply anti-seize on new fasteners.

STEP 4 Reconnect the peg to the new mount while making sure that the spring is in the proper position. Drop mounting pin back into position and secure with washer and cotter pin.

STEP 5 Check to make sure that your peg pivots up freely.

STEP 6 Repeat above steps for other side.

Ride On!
