TOOLS SUGGESTED

Set of Standard Wrenches, Set of Metric Wrenches

NOTE

THE POUCH ON THE BACK REST IS NOT REMOVABLE. IT IS PERMANENTLY ATTACHED WITH PLASTIC BUTTON FASTENERS.

PROCEDURE

STEP 1 Remove the passenger handles from the motorcycle. Using the M8 X 1.25 X 80mm Socket Head Cap Screws, install the mounting brackets as shown in PIC.1.

STEP 2 PIC.2 shows the Driver Back Rest adjustment hub in the unlocked position. PIC.3 shows the adjustment hub in the locked position (Red Arrow to Red Padlock). Be sure both adjustment hubs are in the unlocked position for the next step.

STEP 3 Choose one of the three mounting positions on the mounting brackets. If you are unsure which position will be most comfortable for you then choose the mounting notch in the middle. To attach the Driver Back Rest hold it in an upright position and drop the adjustment hubs below the front of the drivers seat. Move the adjustment hubs back toward the mounting brackets being careful not to tear the seat. You must slightly "spring" the arms outward to reach the Left and Right Side Mounting Brackets.
