BRAKE ROD COVER

9042

FITS: '04-UP XL 883C AND XL 1200C

PART#	INCLUDED
409042	1 Brake Rod Cover — Chrome
309042	1 Installation Instruction

THANK YOU FOR CHOOSING KURYAKYN!

NOTE

If you must remove the brake rod after the Brake Rod Cover is snapped in place, it will be necessary to remove the cover to reach the fastener on the front ball joint of the brake rod.

PROCEDURE

STEP 1 See PIC.1. Align the front "cupped" section of the Brake Rod Cover with the front ball joint of the brake rod.

STEP 2 "Snap" the cupped end of the Brake Rod Cover into place. Slowly move down the cover snapping it into place. If you are not able to snap the cover into place, use a piece of leather, wrap it around the cover/brake rod and use pliers to squeeze the cover into position.

STEP 3 If you ever wish to remove the cover, use a small flat head screwdriver to gently pry upward on the "cupped" end of the cover. Slowly work your way down the length of the brake rod, with the small flat head screwdriver between the cover and the brake rod until the cover pops loose.

Ride On!
