Not all of the included parts will be used during this installation. Take a minute to familiarize yourself with each of the kits and their contents before installation. Please read and understand entire instructions before beginning installation.

THANK YOU FOR CHOOSING KÜRYAKYN!

WARNING! YOU WILL BE WORKING AROUND THE ENGINE AND EXHAUST SYSTEM DURING INSTALLATION. ENSURE THAT THE ENGINE AND EXHAUST SYSTEM HAVE FULLY COOLED TO PREVENT INJURY.

CAUTION! The installation of any high performance air cleaner and/or exhaust system can cause a "lean" fuel/air mixture. A "lean" fuel/air mixture can cause engine overheating resulting in severe engine damage. Kuryakyn recommends that you have the EFI/Carb. tuned by a trained technician.

ATTENTION! It is the installer's responsibility to ensure all fasteners (including pre-assembled) are tightened before operation of the motorcycle. Kuryakyn will not warranty components lost due to improper installation. Periodic maintenance may be required.

ATTENTION! A factory service manual may be helpful in performing this installation. Do not attempt to perform this installation if you are not confident in your ability to complete all steps in the procedure; consult a trained technician.

NOTE Installation of this air cleaner may decrease rider legroom. Please refer to the dimensions provided in our catalog and determine if you feel the installation will adversely affect safe and comfortable operation of your motorcycle before making your purchase or beginning installation. This is especially important for riders with shorter legs.

LIMITED WARRANTY

Kuryakyn warrants that any Kuryakyn products sold hereunder, shall be free of defects in materials and workmanship for a period of one (1) year from the date of purchase by the consumer excepting the following provisions:

- Kuryakyn shall have no obligation in the event the customer is unable to provide a receipt showing the date the customer purchased the product(s).
- The product must be properly installed, maintained and operated under normal conditions.
- Kuryakyn makes no warranty, expressed or implied, with respect to any gold plated products.
- Kuryakyn shall not be liable for any consequential and incidental damages, including labor and paint, resulting from failure of a Kuryakyn product, failure to deliver, delay in delivery, delivery in nonconforming condition, or for any breach of contract or duty between Kuryakyn and a customer.
- Kuryakyn products are often intended for use in specific applications. Kuryakyn makes no warranty if a Kuryakyn product is used in applications other than intended.
- Kuryakyn electrical products are warranted for one (1) year from the date of purchase by the consumer. Components of Kuryakyn products containing L.E.D.s will be warranted for defects in materials and workmanship for 3 years from the date of purchase.
- Kuryakyn makes no warranty of any kind in regard to other manufacturer's products distributed by Kuryakyn. Kuryakyn will pass on all warranties made by the manufacturer and where possible, will expedite the claim on behalf of the customer, but ultimately, responsibility for disposition of the warranty claim lies with the manufacturer.

ABOUT OUR CATALOG

PROCEDURE

STEP 1 Locate the Gasket Kit. Remove the adhesive backing and position the adhesive gasket against the induction module/carburetor; align the four holes. See [PIC.1](#).

STEP 2 Locate the Fixture Ring Kit. Remove the backing from the adhesive gasket and install onto the backside of the fixture ring. See [PIC.2](#).

STEP 3 Hold the fixture ring against the induction module/carburetor and secure it with the three 1/4-20 x 5/8 SHCS. Fully tighten the screws.

STEP 4 Hold the Corsair Air Cleaner assembly against the fixture ring and install the four 1/4-20 x 1/2 SHCS (from the Fixture Ring Kit) as shown in [PIC.3](#). Finger tighten the screws until all have been installed, then tighten securely.

STEP 5 Ensure that all fasteners are tight before riding the motorcycle.

NOTE The fittings in the Gasket Kit have been included for applications that require fresh air venting such as a crankcase breather, float bowl vent, air recirculation circuit, etc.

Remove the 1/8 NPT Hex Threaded Plug located on the bottom of the Corsair Air Cleaner assembly to gain access to the vent port. See [FIG.1. \(on page 3\)](#)

Ride On!
