

KURYAKYN HOLDINGS NEW IDEA SUBMISSION POLICY

Kuryakyn Holdings, Inc. is open to receiving unsolicited ideas and product proposals (i.e., new idea submissions) from outside our company. We appreciate your interest in having Kuryakyn review and consider your submission. Before we proceed with accepting and reviewing your idea, we want to provide you with some basic information about our general policies and procedures for considering submissions.

First, Kuryakyn is in the business of designing and selling after-market products for the motorcycle industry. Kuryakyn may currently be in the process of developing products that are very similar or even the same as the idea you want to disclose to us, or we may have previously considered such products. As such, we do not accept any submission in confidence or with any restrictions whatsoever. Any disclosure you want to make to us about your idea may involve proprietary rights that would be affected by a non-confidential disclosure to us. Kuryakyn and its employees are not authorized to act in a consulting capacity or to give you an opinion as to the manner or degree of protection your idea may be entitled to. You may better understand your rights if you seek the advice and counseling of your own lawyer.

Second, Kuryakyn will only accept information submitted in writing. This is to permit Kuryakyn to evaluate your idea completely and thoroughly. The information you submit may be reviewed by one or more individuals. Kuryakyn attempts to report the results of its evaluation within six weeks. Kuryakyn is not obligated to share the nature and extent of its evaluation with you. Kuryakyn may maintain a file of all information submitted by you and developed by Kuryakyn in the course of conducting its evaluation. If your submission is protected at the time it is made to Kuryakyn, Kuryakyn may, if it is interested, negotiate a license with you for the right to use the information. If a submission has not been patented or is not patentable, and is not protected by copyright, there are no restrictions or limitations on Kuryakyn's use of some or all of the ideas proposed in the submission.

Kuryakyn will accept submissions pertaining to design concepts, drawings, and/or prototypes for the enhancement of existing Kuryakyn products or the development of new products. Kuryakyn will not consider any submissions relating to advertising, promotions, or marketing plans.

If you have read and fully understand the above conditions for submitting your idea to Kuryakyn and agree to be bound by them, please so indicate by signing below.
